

Cookie Policy

Last Updated: 1 May 2026

Version: 2.1

Jurisdiction: Global (GDPR, CCPA)

1 What Are Cookies?

The basics of browser cookie technology

Cookies are small text files placed on your device when you visit a website. They allow the site to remember information about your visit — such as your login status, preferred language, or shopping cart contents — so you don't have to re-enter it every time you return.

Cookies are not executable programs and cannot carry viruses. They simply store key-value pairs of text that your browser sends back to the originating server on each subsequent request. Modern browsers give you complete control over which cookies to allow, block, or delete.

How Cookies Work

1

You Visit

Sets cookies via HTTP headers

2

Server Responds

Browser requests our server

3

Browser Stores

Saves cookie with expiry date

4

Next Request

Cookie sent back automatically

Session vs. Persistent Cookies

Session cookies are temporary — they're deleted when you close your browser tab. **Persistent cookies** remain on your device for a set period (e.g., 30 days, 1 year) and are useful for remembering your preferences across visits.

First-Party vs. Third-Party

First-party cookies are set directly by NexTSpace and only readable by us. **Third-party cookies** are set by external services (like analytics providers) embedded in our pages, and are readable only by those services.

2 How We Use Cookies

The specific purposes behind our cookie usage

NexTSpace uses cookies for five primary purposes. We keep this list deliberately short — we only deploy cookies that serve a clear function and respect your privacy.

- **Authentication & Security**— to keep you securely logged in, prevent CSRF attacks, and detect fraudulent sessions.
- **Preferences & Personalisation**— to remember your theme preference (dark/light), language, region, and cart contents.
- **Performance & Analytics**— to measure page load times, identify errors, and understand how visitors navigate the platform.
- **Marketing & Retargeting**— only with your explicit consent, to show relevant ads and measure campaign effectiveness.
- **Feature Flags**— to roll out new features gradually and conduct A/B tests without disrupting your experience.

We do not use cookies to build personal profiles for sale to advertisers, track you across unaffiliated websites without consent, or store sensitive information such as passwords or payment card details in cookies.

3 Full Cookie List

Complete inventory of all cookies deployed by NexTSpace

The table above in Section 3 provides our full, per-category cookie inventory. All cookies are documented with their name, purpose, maximum storage duration, and party classification. This list is reviewed and updated quarterly, or whenever our cookie usage materially changes.

Cookie Inventory Audit

Our last formal cookie audit was completed on **1 May 2025**. Next scheduled audit: **1 August 2025**. We use automated scanning tools in addition to manual review to ensure completeness.

Total cookies in use: **23** | First-party: **9** | Third-party: **14** | Session only: **5** | Persistent: **18**

4

Third-Party Cookies

Services that set cookies on our pages and their policies

We embed services from the following third parties. Each sets its own cookies according to its own privacy and cookie policies, which we link to below. We have no control over these providers' cookie practices beyond enabling or disabling the integration.

Third-Party Service Providers

- **Google Analytics / GA4**— website analytics. [Privacy Policy ↗](#)
- **PostHog**— product analytics and feature flagging. [Privacy Policy ↗](#)
- **Intercom**— live chat and customer support. [Privacy Policy ↗](#)
- **Stripe**— payment processing (fraud prevention cookies). [Privacy Policy ↗](#)
- **Meta (Facebook) Pixel**— ad conversion tracking (consent-gated). [Privacy Policy ↗](#)
- **Google Ads / DoubleClick**— remarketing (consent-gated). [Privacy Policy ↗](#)
- **LinkedIn Insight Tag**— B2B campaign analytics (consent-gated). [Privacy Policy ↗](#)
- **YouTube**— embedded product demo videos. [Privacy Policy ↗](#)

Marketing Cookies Require Your Consent

Third-party marketing and advertising cookies (Meta, Google Ads, LinkedIn) are only loaded after you explicitly opt in via our consent banner or the preferences manager on this page. They are never activated by default for visitors in the EU, UK, or California.

5

How We Share Cookie Data

Transparency on data flows from cookies

Cookie data — including identifiers, session tokens, and behavioural data derived from cookies — may be shared in the following strictly limited circumstances:

- **With analytics providers**— pseudonymised aggregate data only, to improve our service.
- **With advertising platforms**— only after explicit consent; used for measuring campaign ROI and retargeting.
- **For legal compliance**— if required by applicable law, court order, or regulatory authority.
- **During business transfers**— in the event of a merger, acquisition, or sale of assets, with the same privacy commitments applying.

We **never** sell cookie-derived personal data to data brokers, advertisers, or any other third parties for their own commercial use. Aggregated, anonymised analytics data (which cannot identify you) may be used for industry benchmarking.

6

Your Choices & Rights

Full control over your cookie preferences — always

You have several ways to manage cookies on NexTSpace. Your preferences are saved for 12 months and can be changed at any time.

Available Controls

- **Consent Banner**— when you first visit, choose your preference. Options: Accept All, Essential Only, or Manage.
- **Preference Centre**— use the toggles in Section 3 above to manage individual categories granularly.
- **Browser Settings**— block or delete all cookies via your browser (see Section 8).
- **Industry Opt-Outs**— use NAI, DAA, or EDAA opt-out tools for advertising cookies across the web.
- **GDPR Rights**— EU/UK residents can request data access, deletion, or restriction via our DPO contact.
- **CCPA Rights**— California residents can opt out of the "sale" of personal information via our privacy contact.

Browser Controls

Manage cookies directly through your browser settings

Every modern browser lets you view, manage, block, and delete cookies. Here's how to access cookie settings in the most popular browsers:

Firefox

Menu → Settings → Privacy & Security → Cookies and Site Data

[View Guide](#)

Chrome

Settings → Privacy and Security → Cookies and other site data

[View Guide](#)

Safari

Preferences → Privacy → Manage Website Data → Remove All

[View Guide](#)

Edge

Settings → Cookies and site permissions → Cookies and site data

[View Guide](#)

Opera

Settings → Privacy & Security → Cookies

[View Guide](#)

Mobile (iOS/Android)

Browser Settings → Privacy → Clear Browsing Data → Cookies

[View Guide](#)

Impact of Blocking All Cookies

Blocking all cookies will prevent you from logging in, using the shopping cart, or accessing your dashboard. We recommend using our Preference Centre to block only non-essential cookies while keeping essential ones enabled.

7

Do Not Track

Our response to browser Do Not Track signals

Some browsers transmit "Do Not Track" (DNT) signals to websites you visit. There is currently no agreed-upon industry standard for how websites should respond to these signals.

NexTSpace **does not currently alter its data collection practices** in response to DNT signals. We encourage you to use our built-in Preference Centre (Section 7) or browser cookie settings (Section 8) for granular control, which are more reliable than DNT signals.

We continue to monitor developments in the Global Privacy Control (GPC) standard and will implement support when a clear and legally recognised consensus emerges.

8

Legal Basis

The lawful grounds under GDPR and other regulations

For users in the European Economic Area (EEA), UK, and other jurisdictions with specific cookie consent requirements, we rely on the following legal bases:

- **Strictly Necessary / Legitimate Interests (Art. 6(1)(f) GDPR)**— Essential cookies are deployed under the legitimate interest of providing a functioning service. No consent is required.
- **Consent (Art. 6(1)(a) GDPR)**— Analytics, marketing, and third-party embedded cookies require your freely given, specific, informed, and unambiguous consent before activation.
- **PECR / ePrivacy Directive**— For UK/EU users, we comply with the Privacy and Electronic Communications Regulations, which require prior consent for non-essential cookies.
- **CCPA (California)**— California residents have the right to opt out of the sale or sharing of personal information collected via cookies. See our Privacy Policy for full CCPA rights.

Right to Withdraw Consent

If you previously consented to optional cookies, you can withdraw that consent at any time using the toggles in Section 3 or the Preference Centre. Withdrawal of consent does not affect the lawfulness of processing based on consent before its withdrawal.

Policy Changes

How we notify you of updates to this policy

We may update this Cookie Policy periodically to reflect changes in our cookie usage, new legal requirements, or improvements to our transparency. Material changes will be communicated via the following channels, at least 30 days before taking effect:

- A prominent banner on the NextSpace homepage
- An in-app notification in your account dashboard
- Email notification to registered account holders (for material changes)
- An updated "Last Updated" date and version number at the top of this page

Change History

May 2025 · v2.1 — Current

Added PostHog analytics cookies; updated third-party cookie list

Expanded the cookie inventory to include PostHog for product analytics. Added GPC monitoring commitment. Updated browser guide links.

January 2025 · v2.0

Major rewrite — granular consent controls introduced

Introduced per-category consent toggles. Added functional and third-party embedded cookie categories. Aligned with updated GDPR guidance from EDPB.

March 2024 · v1.0

Initial Cookie Policy published

First published policy covering essential, analytics, and marketing cookies. CCPA compliance section added.
